

Adjustable Beds | I-Care IC333 Ultra-Lo Bed with tilt | Long Single

The ultimate electric bed with the look at feel of a modern bed.

The I-Care IC333 is an ideal hi-lo bed for use at home and offers a unique tilt function for infinite positioning.

Price includes freight delivery, upholstered headboard and visco elastic memory foam mattress.

A fantastic bed that offers all of the health benefits and comfort of a hospital bed without looking like a hospital bed!

Using just one remote to control all bed operations, the IC333 is easy to use and superbly designed.

200kg safe working load (300kg on double and queen sizes)

One remote for all operations (illuminates at night)

Fully height adjustable with tilt allowing unlimited positioning options

Up position to top of mattress 80cm

Low position to top of base 22cm

Head and thigh lift included

10-year warranty

Wide choice of upholstery fabric options from Warwick and Charles Parsons ranges

Made in New Zealand

Full length rails optional extra (please see here to purchase)

This bed is available in all sizes: Long Single | King Single | Double | Queen | King | Super King.

We can also supply Long Single with Companion Bed, King Single with Companion Bed and Super King with Split Mattress (both sides adjustable with a remote on each side).

We have included a visco elastic memory foam mattress with this bed package as it is the most popular, most supportive and easiest for people to adjust their positioning whilst in bed.

Other benefits of the memory foam are:

This mattress is heat and pressure sensitive which means that as it gets warmer it becomes softer. So, when there is a pressure point developing which usually gets hot and enflamed, this area of the mattress will become softer which allows the blood to flow freely again.
